Resin Bloom is a potassium supplement that supplies bioavailable nutrition for flowering plants. Resin Bloom is specifically designed to be used from mid bloom through flushing, and is safe for use up until harvest.

USAGE INSTRUCTIONS:

Measure 2-12mL per gallon throughout the mid to late bloom phase of the plant. Use in peat, soil, or coco. Resin Bloom can be applied as a **foliar spray**. For more information about application rates and feed charts, scan the QR code or visit our website:

WARRANTY: Rooted Leaf Agritech warrants this product conforms to the chemical guarantee on the label. Buyer and User agree to accept all liability associated with handling, use, and disposal of this product. Manufacturer and Seller are not liable for any incidental, consequential or special damages resulting from the use or handling of this product. The exclusive remedy of Buyer or User will be the return of the purchase price of this product, or at the election of the Manufacturer or Seller, the replacement of the product.

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid contact with skin and eyes, if contact occurs, thoroughly rinse affected area with clean water for several minutes. If irritation occurs, seek medical attention. This product is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required during the growth cycle.

STORAGE AND USE PRECAUTIONS: Use as directed. Wear gloves when handling. Store in a cool, dark place away from direct sunlight, and in original containers at temperatures between 50°F and 80°F (10°C and 27°C). Compatible with all media types. Never mix concentrated nutrients together before adding them to water reservoir. Do not return previously mixed product to its original container. Use all product within 12 months of original purchase date.

FOR BEST RESULTS: Measure and mix nutrients into clean, filtered water. Apply feedwater immediately and discard any remaining solution. **pH adjustment not required.** Do not aerate feedwater.

SHAKE WELL BEFORE EACH USE.
